

DECORATOR DATABASE CABINETRY

BEAUTIFUL BEDROOMS

Manufactured semi-custom cabinets are wonderful building blocks to custom furniture for the bedroom. Let your imagination fly and work with your **Floor To Ceiling®** designer to create:

- dressers
- armoires
- lingerie chests
- bedside tables
- mirrors
- bed headboards
- blanket trunks, and other clever storage features you would love in the bedroom

Include a Morning Bar for ultimate bedroom luxury!

The most gratifying result is the incredible quality of the furniture you create!

- Manufactured cabinetry far outpaces the quality of most mass-produced furniture. It is available in far more colors and finishes and all the complex glazed and distressed finishes you want and includes quality oven-dried clearcoats that far out-perform ordinary furniture with lacquer top coats.
- Use camed glass doors, matching wood tops, wood and metal appliqués, columns, legs, fluted inserts, moldings and panels to create detailed furniture in any style you prefer.
- Outfit your dressers and armoires with quality slide-out shelves or interior drawers, making your bedroom storage more accessible. These features are rarely available in ordinary furniture.
- Use moldings to create mirrors that match your furniture in any size you want.
