

## DECORATOR DATABASE CABINETRY

# CLOSET CACHÉ

Closets have, well...come out of the closet! The days are gone when an acceptable closet was a hanging rod behind doors. Newer homes feature walk-in size closets as standard fare in the master bedroom and are often added to other bedrooms. Consumers are demanding closets that are easily organized to fit their busy lifestyle and closet components have become a business category. But, consider the advantages and possibilities when you select high quality built-in closet furniture created to fit your personal needs! Closet furniture designed with custom or semi-custom cabinets makes great sense.

- Open closets can be outfitted to carry through the style and quality of your bedroom furniture created from custom or semi-custom cabinetry. See Beautiful Bedrooms
- Closet cabinetry can be of the same high quality you expect for your kitchen, bath and other high-function areas of your home.
- Personalize your closet space with features like:
  - Sliding shelves
  - Rotating lazy susan type corners
  - Enclosed storage to prevent dust on shoes and seldom used items
  - Drawers to accommodate accessories right where you want them

Your Floor To Ceiling® design specialist will be glad to show you how to expand and improve your closets using quality customized cabinetry.
