

DECORATOR DATABASE CABINETY

FABULOUS FIREPLACES

Surround your fireplace with stunning cabinetwork! Replace a timeworn or out of style hearth and/or mantle with custom or semi-custom cabinetry components. The many advantages of a fireplace surround custom designed for you by Floor To Ceiling® include:

- Choose among numerous wood species. Virtually unlimited hand-rubbed wood finish colors are yours, including complex distressed and glazed finishes; even finishes custom matched to your other cabinetry or furniture.
- High quality oven-dried, clear-coat finishes for exceptional beauty and durability.
- Choose decorative options including detailed mantelpieces, raised panels in square and arched designs, fluted columns, beaded detailing and appliqués or other elegant hallmarks of the cabinetmaker's art.
- Instead of the cookie cutter fireplace treatment found in most homes, enjoy the beauty of a custom designed mantle or surround to enhance the warmth of your fireplace.
- Hand painted or imported tile or solid granite are excellent materials for hearths and surrounds. Use them alone or in combination with custom built-in cabinetwork.
- Match or complement your fireplace surround with a custom designed built-in entertainment center created with the quality of custom or semi-custom cabinetry.

Ask your Floor To Ceiling® design specialist to show you all the options for creating a striking new hearth or fireplace surround.
