

DECORATOR DATABASE CABINETRY

HOBBY HABITATS

Hobbies are an important part of our lives. Perhaps the most pleasurable of your leisure hours is spent doing crafts, sewing, gardening or oil painting. Maybe sports like fantasy football or fly tying, jigsaw puzzles, woodworking or music are more your style.

Quality manufactured custom or semi-custom cabinetry with the myriad of functional interior features and high quality exterior finishes are the perfect answer to a hobby habitat you'll always enjoy.

- Conveniently store hobby items and supplies in divided drawers or spice drawers and other specialty cabinets you adapt to the hobby you pursue.
- Your hobby center is a great place to store giftwrap supplies and a handy space for wrapping holiday gifts, too.
- Provide a comfortable and appropriate work area with style and the durability of a factory applied oven-cured finish.
- Display completed projects in open cabinets or behind decorative glass.
