

DECORATOR DATABASE CABINETRY

HOME OFFICES

There's no place like home! With more and more of us making our living and growing our careers right at home, an attractive and functional home office is becoming a necessity. There is no more attractive and functional way to create your home office than with fine quality custom or semi-custom cabinetry designed for the way you work at home. Built-in cabinetry brings these features and more to your home office:

- The durability required for file drawers that get constant use and finishes that stand up to everyday wear and tear
- The flexibility of design to fit your particular career needs
- A selection of styles and finishes to blend with and complement the furniture in your home
- Components designed especially for PC users
- Bookcases and custom credenzas
- Display cabinets for your diplomas, awards and trophies
- Quality features far surpassing ordinary home office furniture from your office supply store

Expand your horizons! Increase your productivity by combining your home office with the prestige and convenience of a library.

Your Floor To Ceiling® design specialist will help you create a convenient and attractive workspace you'll never have to leave home for, with the quality of built-in cabinetry. Get to your Floor To Ceiling® showroom today!
